The title of the Ph.D thesis is “*Urban Poverty Regions: A Comparative Study of Levels of Living of Slum and Non- Slum Dwellers in Delhi*”. The research work was based on the key issues relating to the urban poverty to demonstrate how different indicators of urban poverty were used in address different issues. There are many issues emerged from the study that would be useful for policymakers, planners etc which can be useful in making decisions for the people who are living

in terrible conditions and facing day to day challenges in their life. The major findings of the study is the people living in slum areas and non- slum areas were both found suffering from the ill effect of urban poverty. In the surveyed localities, most of the households found living with low income which is the root of all the problems and sufferings face by the households.

**Dissertation:** Project Work on “*Environmental conditions of Delhi Slums: A Case Study*” under the supervision of Prof Abha Laxmi Singh, Department of Geography , Aligarh Muslim University, Aligarh. In this project environmental condition of Delhi slums has been made in residents of four selected slums of NCT of Delhi. The study was based on the data collected through a comprehensive field survey conducted for 200 households in Gandhi camp Okhla, Indira colony Shalimar Bagh, Balmiki Kabristan ITO, Meharchand Market Lodhi Road. The major findings of the study is that the inhabitants of the slum facing problems like inadequate water supply ,poor condition of drainage system which causes several diseases and sanitation facilities also reflect poor condition, no proper system of disposal of garbage ,roads also shows bad scenario.
